FENCE PERMIT

All fences shall be built in conformance with Section *17.30.209 Fence Requirements* of the Burlington Zoning and Subdivision Code and shall conform to the construction standards of the City Building Code. No fence shall be erected, constructed, and/or maintained without first submitting a minor site plan to the Development Department for approval. The location, height, and type of fence should be described and shown in this petition.

Petitioner Information

Name: _____ Phone: _____

Address: _____

Description of Fence: _____

_____

The fence at the above location will be constructed to meet all applicable code requirements and will be constructed as described in this petition and site plan. Any fence found to be constructed in violation of the code requirements or found to be located over an easement or property line may be required to be removed at the owner's expense. All information in this permit is deemed accurate.
