

CRAPO PARK TREE LISTING

All trees and shrubs located in the mowed parts of Crapo Park have been tagged, numbered and inventoried. The small round aluminum tags are usually located on the west side of the tree or shrub. The numbers on the plants correspond with the numbers in the plant listing.

The listing is made available to help you identify the many plant species in Crapo Park. It also serves as a tool for the Parks Department to better maintain the plant material in the park.

The Burlington Parks Department hopes that you enjoy your visit to Crapo Park.
